Spa Electrics®

ARGON

DESIGNED BY BUILDERS, FOR BUILDERS

ARGON

The **ARGON** Fibreglass series from Spa Electrics has been purpose-built from the ground up to provide a lighting solution that offers superior illumination and functionality.

From the strength and durability of its components to its class-leading LED performance, every aspect of the **ARGON** has been developed with the industry in mind.

Featuring premium German-engineered LEDs and advanced optics, the **ARGON** is our brightest luminaire to date. Coupled with an industry-first, forward-facing Heat-Sink design, the **ARGON** delivers a slim, modern profile while maximizing efficiency and longevity.

BUILT POWERFUL

Featuring precision-engineered components and our most powerful LED yet, **ARGON** delivers industry-leading brightness and reliability.

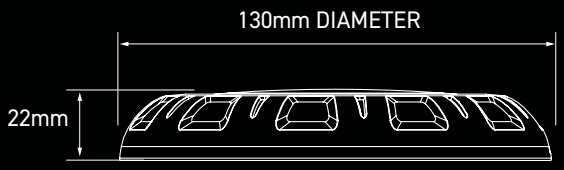

BUILT SMART

Innovative features, such as our IPX8 Quick-Connect Plug, ensure seamless installation and hassle-free servicing throughout the year.

BUILT EFFICIENT

Newly designed, the **ARGON** niche features a 90-degree take-off, for versatile alignment with the conduit.

The **ARGON Series** is designed and manufactured in Australia and backed by Spa Electrics' industry leading customer care network.

PRODUCT SPECIFICATION

VOLTAGE:	12V AC
WATTAGE:	15w
INGRESS PROTECTION:	IPX8
SUITABLE FOR:	Fibreglass pools

LED LIGHT TYPE MULTIPLUS

LED ARRAY:	RGB+W
WAVELENGTH:	Varies
COLOR RANGE:	7 Colors + 4 Shows

MULTIPLUS

HARDWARE SPECIFICATION

POOL CONTROLLERS:	Compatible with most major brand pool controllers
	Compatible with iRIS controllers
TRANSFORMER:	Compatible with LVT Series

AUSTRALIAN MADE

QUICK CONNECT PLUG

CLICK 'N' TWIST

INDUSTRY LEADING BRIGHTNESS
